Transatlantic Transactions: Minimizing Risk, Maximizing Value

Transatlantic transactions are more common with more and more businesses seeking to expand internationally through a variety of different transactional strategies: franchising, joint ventures, co-branding, and licensing. United States and English laws appear similar on their face, but there are fundamental differences that can trip up clients and attorneys. Our panel will compare United States and English laws from the legal and transactional perspectives and provide you with practical strategic knowledge about how to minimize risk in your venture, and yet also maximize value.

Speakers
