

Complex Commercial Litigation

Winning Skills

Growth in international business, continually-changing regulatory standards, increased government scrutiny, and an increase in large cross-border deals are all making commercial disputes more difficult to manage and win. Sprawling global business operations mean the stakes are high, sometimes with worldwide business and political implications. Our clients value our extensive experience in the most complicated commercial litigation, and our attorneys consistently meet their expectations, serving as aggressive, skillful, and professional advocates.

Reach

High Caliber

Every business day finds our team of 170 attorneys in courts across the U.S. and in arbitrations worldwide, representing high-caliber, long-term clients. We handle litigation related to sophisticated corporate considerations, including breach of contract, business torts, consumer claims, advertising, unfair and deceptive trade practices, banking and financial transactions, mergers and acquisitions, vendor disputes, commercial real estate, corporate espionage, and professional liability.

Approach

Cost Control

We meet the highest client service standards while anticipating, communicating, and controlling the cost of litigation through early case assessment, written case budget and case management plans, use of [e-discovery tools](#) that ensure both efficiency and compliance, and alternative fee arrangements. Kilpatrick Townsend attorneys bring significant experience in key disciplines, including accounting and audit standards, business valuation, and employee benefits, as well as the admissibility of expert opinion testimony in business cases.
