Mr. Shaffer (Bill) focuses his practice on patent prosecution and counseling, patent portfolio building/management, patent analysis and post-grant patent procedures, including reexamination and reissue proceedings. He has been a trusted advisor to a number of the largest companies in the electronics and software industries helping the companies grow their patent portfolios and navigate complex patent issues. Specific technologies Mr. Shaffer has experience with include, among others, consumer products, thin film processing, semiconductor manufacturing equipment, wafer inspection and metrology, chip-level packaging, computer generated imagery (CGI) animation, LiDAR, photovoltaic systems and films, computer architecture and software- and Internet-based technologies.

During the course of his 25+ year career as a patent attorney, Mr. Shaffer has assisted patent litigation efforts in jurisdictions including the Northern District of California, the Eastern District of Texas, the Eastern District of Virginia and the International Trade Commission. He has also been the lead or co-lead attorney for a dozen reexaminations, including both inter partes and ex parte matters, many of which involved patents in litigation, representing both patent owners and challengers. Mr. Shaffer has also advised prominent venture capital backed start-ups and provided in depth analysis of individual patents and patent portfolios in connection with venture capital investments and corporate acquisitions.

Prior to joining the legal profession, Mr. Shaffer worked both as a software engineer writing assembly language code for consumer electronics products as well as writing ADA code for a large government-based contract in the defense industry.

Mr. Shaffer was recognized as a Northern California "Super Lawyer" in the area of Intellectual Property by *Super*
